## Workplace Earthquake Kit (15 points)

Your workplace kit should be small and portable as well, but should be designed to carry your supplies with you if your business is closed and you need to evacuate to another location. Place it into a daypack. **REMEMBER:** You could be stranded for up to 72 hours. Make sure that you have enough supplies to meet your needs. If you purchase anything for this kit you **MUST** remove **ALL** packaging and/or tags (the space blanket is the only exception). Here is a list of items to place in your portable Earthquake Kit:

- THIS LIST (1 point)
- Daypack, backpack, or duffle bag large enough to hold everything (1 point)
